

The Institute of Applied Computing and Community Code (IAC3) announces a call for graduate Scholarships students enrolled in a minimum of 18 credits of Master of Advanced Physics and Applied Mathematics (FAME) at the University of the Balearic Islands. These 18 credits will be counted among those who are within blocks of specialty Applied Mathematics and / or Astrophysics and Relativity Master FAME.

The amount of aid is € 1000 in general, although this amount may be increased in the case of foreign students coming from other regions or by way of grants afraid of moving.

Applications must be sent to the administrative services of the Centre for Postgraduate Studies of the UIB. The application deadline is October 16, coinciding with the closure of the registration period.
